

SA-ESRF-2019**Wednesday 13 November 2019****Parallel-Bio - Gold Room (11:00-12:40)****-Conveners: Bryan Trevor Sewell**

time	[id] title	presenter
11:00	[24] MicroCT provides novel insights into plant form and function	Dr SKELTON, Robert
11:25	[25] Heterologous expression, crystallization and structural determination of Schistosoma mansoni Universal stress G4LZI3 protein by X-ray crystallography.	Prof. KAPPO, Abidemi Paul
11:50	[104] Structural characterization of neutralizing antibody lineages from an HIV-infected donor	Dr MOYO, Thandeka
12:15	[3] Biophysical characterization of Plasmodium falciparum Hsp70-Hsp90 organizing protein (PfHop) reveals a monomer that is characterised by folded segments connected by flexible linkers	Dr MAKUMRE, Stanley
