 **Formatting & Special chars**

The development of informed views about scientific inquiry forms an integral part of a key endeavour geared towards meaningful enhancement of scientific literacy. Within the realm of curriculum innovation, there is an added imperative for scientific inquiry to underpin curriculum reform efforts. In this regard, the Views About Scientific Inquiry (VASI) questionnaire was utilized to establish university physics students' baseline knowledge about scientific inquiry as an essential tenet in science education. Analysis of responses revealed fragmented and incoherent views about the nature of scientific inquiry with the concomitant implication that students appeared not to hold informed views about scientific inquiry itself.

**Apply to be considered for a student award (Yes / No)?**

No

**Level for award (Hons, MSc, PhD, N/A)?**

No

**Main supervisor (name and email) and his / her institution**

No

**Would you like to submit a short paper for the Conference Proceedings (Yes / No)?**

Yes

**Please indicate whether this abstract may be published online (Yes / No)**

Yes

**Primary author:** Dr RAMAILA, Sam (University of Johannesburg)

**Co-author:** Prof. RAMNARAIN, Umesh (University of Johannesburg)

**Presenter:** Dr RAMAILA, Sam (University of Johannesburg)

**Session Classification:** Edu

**Track Classification:** Track E - Physics Education
