

63rd ANNUAL CONFERENCE OF THE SA INSTITUTE OF
PHYSICS

Contribution ID: 234

Type: Oral Presentation

South African Women in Physics- Progress

Wednesday, 27 June 2018 13:20 (20 minutes)

The landscape of Women in Physics in South Africa has change dramatically since launch of WIPISA in 2005. PhD graduates have increased with at least one female staff member in various institutions and research centres. Research groups led by female professors are visible but few. While there is such progress, women are still found to occupy invisible positions in their institutions and some get completely lost. This presentation will show the statistical progress and possible solutions to visible issues.

Please confirm that you have carefully read the abstract submission instructions under the menu item "Call for Abstracts" (Yes / No)
