

Response to referee

We would like to thank the referees for their careful reading of the manuscript.

We have taken all of their comments into account, except the suggestion to include a schematic image of the cluster, given the lack of space. We trust that this would be in order.

In addition, we have shortened the abstract, and also included three new references. We have also shortened some sentences so that the manuscript adheres to the page limit.

Changes are indicated in bold face (the name ends in \*\_BF.pdf); we have also uploaded a final version of the manuscript without the bold face.

Best wishes

The authors
