[20]	Structure-property correlation of cerium doped bismuth vanadate for energy application.	Mr MALIHASE, Dennis	
[21]	Synchrotron light source to aid where traditional SCD experiments fall short	Ms CARSTENS, Thalia	
[22]	Doped bismuth oxide materials for low-temperature solid oxide fuel cell electrolyte	Mr RAMAFEMO, Masilo	
[23]	The effect of Cs content on the structural and photo physical properties in mixed cation hybrid-perovskites.	SHNIER, Adam	
[28]	Structural characterization of Ti6Al4V/TiC thin films produced by RF Magnetron Sputtering.	Mr ABEGUNDE, Olayinka Oluwatosin	
[0]	Determination of capture barrier energy of the E-center in Pd/Sb-doped Ge by varying the pulse width	Dr OMOTOSO, Ezekiel	
[10]	Mechanical, electronic and electrical properties of diamond-like carbon films grown by RF magnetron sputtering	Dr MBIOMBI, wilfred	
[13]	Exploring air exposure as a major pitfall in producing LiFePO4	Ms THIEBAUT, Michelle	
[12]	The Search for an Improved SOFC Electrolyte Material: Stabilizing the Fm3m Phase of Bismuth Oxide to Lower Temperatures	Mr KIEFER, Mathias	
[14]	Exploring structure-property relationships in NASICON-type Sn-doped LiTi2(PO4)3	Ms NKALA, Gugulethu
