GA2024: an opportunity for physics in Africa

Friday, 30 July 2021 11:30 (15 minutes)

In 2024, for the first time in the 100 year history of the International Astronomical Union (IAU), the General Assembly will take place on the African continent! The capacity to host a General Assembly is a result of exciting infrastructure and human capital development projects on the continent, and also shows that Africa is no longer just peripheral to the global scientific endeavour. In this presentation, we share the vision for the 2024 General Assembly of the IAU through the lenses of research, people, infrastructure and legacy. We hope to stimulate collaborations that can shape the future of astronomy and physics both on the African continent, and globally.

Apply to be considered for a student ; award (Yes / No)?

No

Level for award;(Hons, MSc, PhD, N/A)?

N/A

Primary authors: MCBRIDE, Vanessa (University of Cape Town & SAAO); GOVENDER, Kevindran (South African Astronomical Observatory)

Presenter: MCBRIDE, Vanessa (University of Cape Town & SAAO)

Session Classification: Physics for Development, Education and Outreach

Track Classification: Track E - Physics for Development, Education and Outreach
