

Supervisor/Promoter Agreement

Note: In order to improve the scientific quality and ensure credibility of published proceedings of South African Institute of Physics (SAIP) conferences, it is essential that manuscripts be evaluated by competent individuals. Unfortunately, the physics community in South Africa is small and the onerous responsibility of reviewing manuscripts cannot be left to a few individuals. As a supervisor of a student submitting a paper, you will automatically be added as a referee for the 2021 SAIP Conference proceedings.

NB: I would like to indicate that I am not a student any more and I have indicated that I am willing to review papers as well, but I will also suggest below the people who are physics experts and can be considered to review papers for the conference.

Paper ID	210
