

BIOPHYSICS IN AND FOR AFRICA

Wednesday 24 March 2021

Structural biology II (14:20-18:00)

-Conveners: Bryan Trevor Sewell

time	[id] title	presenter
15:00	[28] Structural biology using neutrons: introduction and how to get started	FISHER, Zoe
15:40	[8] Structure of mycobacterial ATP synthase with the TB drug bedaquiline	RUBINSTEIN, John
16:20	[43] Structural and un-structural biology by NMR spectroscopy	Prof. PIERATTELLI, Roberta
16:50	[29] Structural and functional characterization of the secreted adhesion EtpA of enterotoxigenic Escherichia coli	Mr NTUI, Clifford Manyo
17:10	[42] Molecular basis for the transfer of large toxin plasmids in Clostridium perfringens	TRAORE, Daouda
