

NELSON MANDELA
UNIVERSITY

ANNUAL CONFERENCE OF THE SOUTH AFRICAN INSTITUTE OF PHYSICS (SAIP 2022)

Date:
4-8 July 2022

100 years
of Physics in Africa
Past, Present and
Future

Dear poster presenters,

this working document gives details regarding the SAIP2022 virtual poster sessions.

- The oral sessions of SAIP2022 will be run via the gather.town application.
- All submitted posters are already embedded on the site and are ready for viewing.
- The link (and password) to access gather.town will be emailed to all registered participants.
- An introductory video on how to use the gather.town application is available at <https://youtu.be/7nmEY97XqRM>
- We have decided to use the half of Wednesday (06 July 2022) for poster sessions.
- Participants can use the morning session to test the system and make sure they are comfortable using it. It may take a while to get used to the navigation.
- Where possible, we have asked divisions to use the afternoon session for the judging of posters. More information on this will be available from the different division chairs.
- LOC members can be identified by their gather.town name which includes “LOC_” in front of their full names.
- We have embedded a number of private spaces, including whiteboards, that can be used as (confidential) meeting and discussion rooms. Please feel free to make use of these!

General gather.town etiquette:

- Please use your real name on your gather.town profile and not any other alias.

To get any help:

- There is a virtual poster help desk embedded in the gather.town application.
- For troubleshooting you may also visit: <https://support.gather.town/help/av-troubleshooting>
- If you have any problems connecting to the gather.town platform, please contact saip2022@saip.org.za

Thank you and kind regards,
SAIP2022 LOC
