

2023 African Light Source Conference

Contribution ID: 156

Type: **not specified**

STF - African Regional Infrastructure

Monday, 13 November 2023 17:45 (15 minutes)

This is research infrastructure that is highly competitive in its own right but which is also seen as an important training and feeder infrastructure to an AdLS. Current examples are the OpenLabs started in several African countries together with the IUCr, XTechLab in Benin and the Sir Aaron Klugg Bioscience Facility in Capetown.
