Comments on the Geopolitical Conceptual Design Report for an African Light Source

Friday, 22 November 2024 09:00 (30 minutes)

The African Light Source Foundation has been engaged in a variety of activities to bring a synchrotron light source facility to the African continent. A milestone along the road to that goal has been the production of a geopolitical conceptual design report that discusses the justification, history, and road ahead for the African Light Source. In this presentation, we will expound upon these items.

Primary author: Prof. MTINGWA, Sekazi (African Light Source Foundation)
