

Biophysics in Africa - 2026

Tuesday 24 March 2026

Featured Invited Talk: Opening Plenary Session: Prof Anita LAYTON (15:00-16:30)

time	[id] title	presenter
15:00	[72] Opening Plenary Remarks	
15:05	[68] We are all different: Modeling key individual differences in physiological systems	Prof. LAYTON, Anita

Thursday 26 March 2026

Featured Invited Talk (11:00-11:45)

time	[id] title	presenter
11:00	[64] Fluorescence-Lifetime Super-Resolution Microscopy	Prof. ENDERLEIN, Jörg

Featured Invited Talk (14:00-14:45)

time	[id] title	presenter
14:00	[65] The importance of water in biology - an example of receptor function and implications for optogenetics	Prof. WATTS, Anthony

Friday 27 March 2026

Featured Invited Talk (14:00-14:30)

time	[id] title	presenter
14:00	[50] From Sample to Structure: An Introduction to Cryo Electron Microscopy and Single Particle Analysis	THOMPSON, Rebecca

Featured Invited Talk (15:00-15:40)

time	[id] title	presenter
15:00	[69] Multiscale local self-organization of the human metaphase mitotic spindle	Dr CONWAY, Will
