## **Strengthening the Output Power of an Optical Fiber Laser**

Theory on layout of a fiber laser, how a fiber laser operates and increasing the output power is covered in the paper. The steps followed to increase the output power are discussed, including the experimental results obtained.

**Primary authors:** Prof. MEYER, Johan (University of Johannesburg); Mr LE ROUX, Josias (University of Johannesburg); Dr MARTINEZ, Rodolfo (University of Johannesburg)

**Presenter:** Mr LE ROUX, Josias (University of Johannesburg)

**Track Classification:** Track C - Lasers, Optics and Spectroscopy
