Network knowledge base on low-energy nuclear physics

The project “Knowledge base on low-energy nuclear physics” allocated in the Web solves the two following problems: 1) Fast and visual getting of experimental data on nuclear structure and cross sections of nuclear reactions, a possibility for processing these data, their comparison and plotting the studied regularities and systematizations. 2) Analysis of experimental data and modeling the processes of nuclear dynamics within the foolproof codes based on the well-established physical approaches just in a window of the Web-browser.

Primary author: Dr KARPOV, Alexander (Flerov Laboratory of Nuclear Reactions, JINR)

Co-authors: Mr ALEXEEV, Alexander (Chuvash State University); Dr DENIKIN, Andrey (International University of Nature, Society and Man, “Dubna”); Mr NAUMENKO, Mikhail (Flerov Laboratory of Nuclear Reactions, JINR); Prof. ZAGREBAEV, Valery (Flerov Laboratory of Nuclear Reactions, JINR)

Presenter: Dr KARPOV, Alexander (Flerov Laboratory of Nuclear Reactions, JINR)

Track Classification: Track B - Nuclear, Particle and Radiation Physics
