## Plasma dynamics and species emission study of vanadium (IV) oxide (VO<sub>2</sub>) in oxygen background

*Tuesday, 9 July 2013 17:40 (1 hour)*

### Abstract content <br> &nbsp; (Max 300 words)

Optical emission spectroscopy diagnostic of VO<sub>2</sub> plasma created by an excimer KrF laser pulse at 2 J/cm<sup>2</sup> laser fluences was performed under range of oxygen pressure. A spatio-temporal evolution study of different species such as VI (437.85 nm), VII (326.1 nm), VIII (237.1 nm) and VO (608.56 nm) are presented and compared. The plume expansion dynamics of an ablated target of VO<sub>2</sub> was also investigated using fast imaging. Free expansion, splitting and stopping of the plume were observed at different pressure and time delays. It was observed that at early time delays, the expansion is linear. However, as time evolves, the plume is decelerated and comes to rest. The plasma plume dynamics was analysed in the framework of Predtechensky and Mayorov model and drag model. It was discovered that Predtechensky and Mayorov model gives a general description of the plume expansion. However, at a later time delays, it is rather the drag model which is valid.

### Apply to be<br> considered for a student <br> &nbsp; award (Yes / No)?

Yes

### Level for award<br>&nbsp;(Hons, MSc, <br> &nbsp; PhD)?

PhD

### Main supervisor (name and email)<br>and his / her institution

Prof. Andrew Forbes, AForbes1@csir.co.za  
CSIR National Laser Centre and Univesirty of KwaZulu-Natal

### Would you like to <br> submit a short paper <br> for the Conference <br> Pro-ceedings (Yes / No)?

No

**Primary author:** Ms MASINA, Bathusile (CSIR National Laser Centre)

**Co-authors:** Dr SAMIRA, Abdelli-Messaci (Centre de de'veloppement des techonologies avance'es); Prof. FORBES, Andrew (CSIR National Laser Centre); Dr TAHAR, Kerdja (Centre de de'veloppement des techonolo-

gies avancées); Dr WU, Lorinda (CSIR National Laser Centre); Mr LAFANE, Slimane (Centre de développement des technologies avancées)

**Presenter:** Ms MASINA, Bathusile (CSIR National Laser Centre)

**Session Classification:** Poster1

**Track Classification:** Track C - Photonics
