

# 10th Annual Inkaba yeAfrica and !Khure Africa Conference (2014)

## Friday 03 October 2014

### Strain - Conference Room, Matjiesfontein Station (09:00-10:30)

-Conveners: Stoffel Fourie

| time  | [id] title  | presenter                       |
|-------|---|---------------------------------|
| 09:00 | [39] Structural deformation features of the Bokkeveld Group (Cape Supergroup) in the Eastern Cape, South Africa                       | Mr BRUNSDON, Gideon             |
| 09:15 | [5] Reappraisal of single station locations reported by the South African National Seismograph Network during the period 2000 to 2005 | Mr SAUNDERS, Ian                |
| 09:30 | [32] The Seismicity of the Eastern Cape Province  | Ms MOGOSWANE, Mpho              |
| 09:45 | [31] The Seismicity of the Eastern Cape Province  | Ms MAHLAGAUME, Charmaine        |
| 10:00 | [30] Seismic vault construction and challenges; HartRAO and Klerefontein  | Ms RAKGALAKANE, Malebo Sharon   |
| 10:15 | [50] Induced seismicity in South Africa. Failure mechanisms, source parameters and magnitude estimates                                | Mrs EBRAHIM-TROLLOPE, Rookshana |

### Strain - Conference Room, Matjiesfontein Station (11:00-11:30)

-Conveners: Stoffel Fourie

| time  | [id] title   | presenter          |
|-------|--|--------------------|
| 11:00 | [47] The Cape Fold Belt – some stratigraphic and structural insights | Prof. BOOTH, Peter |
| 11:15 | [44] Numerical Analysis of finite strain in the Warm Zand Structure  | Mr SAFFOU, Eric    |
