Referee response letter

Dear Reviewers

Thank you for your kind suggestions regarding our manuscript titled “Investigating gamma-ray fluxes from globular clusters”. We are very grateful to the referees' comments and thoughtful suggestions. We have made careful modifications to the original manuscript, and carefully proof-read the manuscript. We implemented the comments in bold, and trust everything is in order. We therefore believe that the manuscript has been greatly improved and acknowledge your help in this regard.

Sincerely yours
The authors
