

List of changes to SAIP 2016 conference  
proceedings:

Calibration of statistical methods used to constrain pulsar  
geometries via multiband light curve modelling

MC Bezuidenhout, C Venter, AS Seyffert, and AK Harding

November 27, 2017

- Changed mentions of “eye-ball” in abstract to “by-eye”.
- Changed all instances of “gamma rays” to “ $\gamma$  rays”.
- Rewrote second paragraph on p. 3 starting with “Other studies...”.
- Increased the size of the headings and axis labels of figure 1. Decreased the phase range to about 1.2 rotations.
- Rewrote last two paragraphs regarding future study.
- Fixed some grammar/spelling mistakes.
