Type: Oral Presentation

Measurements of gamma-ray production cross sections of proton beam at energies of 80-125 MeV with calcium target.

Wednesday, 6 July 2016 14:40 (20 minutes)

Abstract content (Max 300 words) Formatting & Special chars

During cancer treatment therapy a lot of proton particles with incident energy of 200 MeV enter the human body of the patient. They interact with the elements in the body such as ^{40}Ca , ^{16}O , ^{14}N and release their energy step by step in nuclear reaction processes. To understand well the processes we need to know the probability of the proton interactions with each of the elements inside the patient's body as a function of the proton energy. In this work gamma-ray spectra obtained when calcium is bombarded by accelerated protons in the energy range from 80 to 125 MeV are analysed. This analysis yields experimental data for cross sections for gamma-ray production in these nuclear reactions. The results on the cross sections and their importance for medical therapy will be discussed.

Apply to be considered for a student award (Yes / No)?

Yes

Level for award (Hons, MSc, PhD, N/A)?

MSc

Main supervisor (name and email) and his / her institution

Dr E.A Lwarie
elena@tlabs.ac.za
iThemba LABS

Would you like to submit a short paper for the Conference Proceedings (Yes / No)?

No

Please indicate whether this abstract may be published online (Yes / No)

Yes

Primary author: Mr KUNYANA, AYANDA (UNIVERSITY OF ZULULAND)

Co-authors: Prof. BELHOUT, A (Universite des Sciences et de la Technologie H.Boumediene); Prof. CHAFA, A (Universite des Science et de la Technologie H.Boumediene); Mr REBEIRO, B (University of Western Cape); Dr MOUSSA, D (Universite des Sciences et de la Technologie H.Boumediene); Dr LAWRIE, ELENA (iThemba LABS); Prof. BENHABILES, H (Universite M'Hamed Bougara); Dr DELONCLE, I (Centre ds Sciences Nucleaire et des Sciences de la Matiere); Dr KIENER, J (Centre des Sciences Nucleaire et des Science de la Matiere); Dr LAWRIE, J.J (iThemba LABS); Mr DEDABI, M (Universite des Sciences et de la Technologie H.Boumediene); Dr RAJU, M.K (University of Western Cape); Dr JONES, P (iThemba LABS); Prof. DAMACHE, S (Division de Physique); Prof. OUICHAOUI, S (Universite des Sciences et de la Technologie H.Boumediene); Dr NTSHANGASE, SIFISO (UNIVERSITY OF ZULULAND); Dr BUCHER, T.D (iThemba LABS); Dr DINOKO, T.S (iThemba LABS); Mr RAMANATHAN, V (University of Cape Town); Mr YAHIA-CHERIF, W (Universite des Sciences et de la Technologie H.Boumediene)

Presenter: Mr KUNYANA, AYANDA (UNIVERSITY OF ZULULAND)

Session Classification: Nuclear, Particle and Radiation Physics (1)

Track Classification: Track B - Nuclear, Particle and Radiation Physics
