

SAIP Referee response

William Grunow

November 2017

1 Changes made

- Figures on last page were modified to include captions, the captions should clarify what is the important information one should extract from the figures and why the scale used in the paper is appropriate.
- Citations for the experimental measurement of the QGP have been added.
- “The line starting with ”It has been suggested by [1]...” if first paragraph is missing a couple of ”ifs”.” Fixed
- “Section 3: ” what we will detail.”-¿ what we performed.””. Fixed
- Added spaces missing after some punctuation.
