The Editor
The Proceedings of SAIP2016,

Dear Sir/Madam

Re: response to the reviewer comments to manuscript SAIP 137- 26 July 2016

The authors would like to thank the reviewers for their thorough review and constructive comments.

- As suggested, to the extent space restrictions allow, we have expanded paragraph 2 on page 2 on the description of the enrichment programme.
- Paragraph 3 on page 2 states the selection criteria used to select the students participating in the enrichment programme.
- The margins of both Tables and figures were corrected they are all now within page margins.
- We have now correctly indented the references.

Thank you very much for the inputs made which may increase the accessibility and accuracy of the paper.

We hope that after these corrections, the paper will be suitable for publication.

Yours faithfully
Vonani Michael Baloyi (SAIP 137- 36 July 2016)
