

**SAIP2017****Monday 03 July 2017****Photonics Winter School - A203 (09:00-17:00)**

time	[id] title	presenter
09:00	[432] The development of a laser based 3D fingerprint acquisition device	Mr SHARMA, Ameeth
09:30	[433] Biomedical Imaging with micro-fabricated optically pumped magnetometers	Prof. KNAPPE, Svenja
10:20	Tea	
10:50	[435] Biomedical detection using optical phenomena	Dr LIEBERMAN, Robert
11:40	Lunch	
13:00	[436] Precision time and frequency metrology with light	Dr ROUX, Filippus
13:50	[437] Generation of a gamma ray laser	Prof. CONNELL, Simon
14:40	Tea	
15:10	[438] Precision molecular spectroscopy for astrophysics	Dr STEENKAMP, Christine
16:00	[439] Novel techniques for optical metrology using structured light	Dr GUZMAN, Carmelo
